

A FLEXIBLE AND POWERFUL DOCUMENT SCANNING SOLUTION

The Canon imageFORMULA DR-S150 is a flexible, easy-to-use office document scanner. Built in Wi-Fi®, wired Ethernet and USB connections for networked and local operation allow the scanner to be used with desktop computers, compatible smartphones, or tablets, and shared among multiple users. And the large, user-friendly, color touch-screen makes it easy to select destinations or shortcuts. With the DR-S150, document information can be converted, processed, and shared efficiently for improved collaboration and productivity.

WIDE RANGE OF USES

The DR-S150 scanner is ideal for use by workgroups or individual users in many industries, including financial services, healthcare, legal services, insurance, and more. It can be used to modernize or automate paper-based business processes to help streamline workflows and help reduce transaction costs. The DR-S150 can also be part of a document management system or content services platform, integrating with existing backend systems for more efficient information management and improved compliance.

EASY TO USE

The DR-S150 scanner was designed with a large, color LCD touch-screen and an intuitive user interface. Up to 99 scanning jobs can be preset as shortcuts using the included CaptureOnTouch software and performed directly from the touch-screen. For easy maintenance, notifications of potential errors and roller replacement will appear on the LCD screen, allowing users or administrators to tackle issues quickly.

VERY FLEXIBLE

The DR-S150 scanner is very flexible and versatile. Ethernet, USB, and Wi-Fi connection options allow users to easily use the scanner with a desktop computer, compatible smartphone, or tablet. Various connection options allow the device to be shared among multiple

users. This allows the scanner to be located almost anywhere in an office environment. Users can even scan directly to shared network folders, without using a computer. The scanner can also reliably handle many different media types in batches or individually, including passports; receipts; photos; business cards; plastic or embossed cards; thick, thin, long or over-size documents; and more.

POWERFUL PERFORMANCE

This scanner can scan both sides of an item in a single pass and in color, up to 45 pages per minute. And with the capacity to hold up to 60 sheets in the Automatic Document Feeder (ADF), the DR-S150 scanner can efficiently and intelligently process documents and other media. The on-board image processing CPU works independently of the performance of the attached computer, so that documents are converted to usable digital information quickly and accurately.

HIGH-QUALITY IMAGING

To help capture information accurately, the DR-S150 scanner incorporates Canon's imaging expertise to deliver features such as Optical Character Recognition (OCR) to create searchable and editable information, and Character Emphasis to help improve text legibility. To help save time with many business processes, page sizes can automatically be detected and images can be rotated.

ROBUST SUITE OF SOFTWARE APPLICATIONS

With users requiring flexibility in their business technology, the DR-S150 scanner is bundled with a suite of convenient software applications to help widen the scope of capture and output capabilities. Canon's CaptureOnTouch Pro is powerful yet easy-to-use scanning software. It performs OCR, converts documents to searchable PDF or JPG, and scans directly to the cloud (Dropbox, Google Drive, OneDrive, Box, QuickBooks Online, Evernote, SharePoint, and more)[†] to improve sharing and collaboration. Kofax Virtual ReScan (VRS) helps to automatically enhance the overall quality of scanned images and reduce the time involved in manual document preparation. Settings to automatically adjust output resolution for improved file quality and reduce size are just some of the features available with these software applications.

The CaptureOnTouch Job Tool App—available for iOS, Android, and Windows—allows users to scan to and from their smart devices.

ENVIRONMENT IN MIND

The DR-S150 scanner meets ENERGY STAR[®] guidelines for energy efficiency and complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.[‡] The scanner also has an EPEAT environmental rating of Silver.

CUSTOMER CARE

eCarePAK options protect your investment and extend service beyond the initial three-year advanced exchange warranty period. This saves on costs associated with post-purchase maintenance and helps maximize uptime throughout the scanner's life.

SPECIFICATIONS

Type:	Office Document Scanner	
Document Feeding:	Automatic or Manual	
Document Size		
Width:	2.0" – 8.5"	
Length:	2.1" – 14.0"	
Long Document Mode:	Up to 118"	
Document Weight:	7 – 56 lb. Bond Plain Paper	
Feeder Capacity:	Up to 60 Sheets	
Grayscale:	8-bit	
Color:	24-bit	
Light Source:	RGB LED	
Scanning Element:	Contact Image Sensor (CMOS)	
Scanning Modes:	Color, Grayscale, Black and White	
Optical Resolution:	Up to 600 dpi	
Output Resolution:	100/150/200/240/300/400/600 dpi	
Scanning Speeds*	Simplex	Duplex
Black and White:	Up to 45 ppm	Up to 90 ipm
Grayscale:	Up to 45 ppm	Up to 90 ipm
Color:	Up to 45 ppm	Up to 90 ipm
Interface:	USB 3.2 Gen 1, 10Base-T/100Base-TX/ 1000Base-T Ethernet, Wi-Fi [®]	
Dimensions (H x W x D):	9.5" x 11.5" x 9.8" (with trays closed)	
Weight:	7.44 lb.	
Power Consumption:	22.5W or Less (Sleep Mode: 3.1W or less)	

Suggested Daily Volume:	4,000 Scans**
Bundled Software:	ISIS/TWAIN Driver, CaptureOnTouch Pro V4, Kofax VirtualReScan Basic
Supported OS:	Windows 7 Service Pack 1 or newer version (32 bit / 64 bit), Windows 8.1 (32-bit/64-bit), Windows 10 (32-bit/64-bit), Windows Server 2008 R2 Service Pack 1 or newer version, Windows Server 2012 R2, Windows Server 2016, Windows Server 2019
Options:	Flatbed Scanner Unit 102, Exchange Roller Kit (feed roller and retard roller), Passport Carrier Sheet, A4 Carrier Sheet
Other Features:	Automatic Color Detection, Automatic Page Size Detection, Automatic Resolution Setting, Background Smoothing, Character Emphasis, Color Dropout/Enhance Color, Deskew, Double-Feed Release, Feeding Retry, Folio Mode, Image Rotation, Long Document Mode, MultiStream™, Pre-Scan, Prevent Bleed-Through/Remove Background, Separation Retry, Shadow Cropping, Skip Blank Page, Text Enhancement, Text Orientation Recognition, Ultrasonic Double-Feed Detection, User Preferences
Item Number:	4044C002
