

Email Hosting

Installing your own in-house Microsoft® Exchange server comes with expensive hardware costs, and keeping up with Exchange patches and updates can be complicated and time-consuming. In addition, items such as anti-virus, anti-spam, encrypted email, email archive and content filtering add-on hardware and software multiplies staff time and cost. And, with Email Management Services, your email expenses are never a mystery. Pricing is a simple monthly per-user cost. Let us do your email and web hosting, and you'll save time, money, and operating costs.

Eliminate Spam & Viruses

Our Standard Package includes Complete Global Address Lists, email @yourdomain.com, Unlimited Email Alias's, and more.

Access Email from any Browser

Outlook Web Access provides continuous email access, you can check your email via any browser.
