AI

- **Cyberquery AI Assistant**
  - Ask questions in plain English
  - Answers your questions or builds a ready-to-run query
  - No coding required, no reporting expertise required
- **How does the AI Assistant work?**
  - It knows the Cyberquery Language
  - It knows the XP2 database structure
  - It leverages your existing reports as starting points
- **What about Security?**
  - The AI Assistant is trained to write reports and answer questions
  - It does not store your data
