"Partnering with United Solutions to host our FICS® mortgage software gives Members Mortgage Company the security, reliability, and compliance infrastructure we need to support our diverse client base. With USC's compliant data centers and secure cloud environment, we can stay focused on delivering a fully integrated, variable-cost mortgage platform. From origination to funding, we ensure our credit union partners have the technology, transparency, and the confidence they deserve. Their hosted solution saves us time and money versus our old on-prem server."

Joseph N. Zampitella, President, Members Mortgage Company, Inc.

ABOUT US

The United Solutions Company, with more than 225 customers in 33-states, has been servicing banks and credit unions for over 40-years. USC has been hosting FICS® software for 20 years. We have state of the art, fully replicated data centers in Tallahassee, FL and Louisville, KY. With five nine uptime and a talented staff of networking experts, United Solutions is a great place to host your FICS® Loan Producer®, Mortgage Servicer®, and Commercial Servicer® software.
