

OnCore Suite

OUR SERVICES.

United Solutions has recognized the growing digital era. With this recognition we have created OnCore Suite. OnCore Suite integrates with XP2 and DataSafe. OnCore Suite consists of five different modules for credit unions to improve their operations.

Business Intelligence Reports: Access your USC Business Intelligence reports at the click of a button. Utilize the data to analyze your credit union operations and apply it within our other modules.

- 1585 Summit Lake Dr
Tallahassee, FL 32317

Forms: Use OnCore Forms to create your member and loan documents without the hassle of double entry. Pull data directly from the core to prepopulate your documents. Use one of three signing options and export seamlessly to your optical solution. Learn more about Forms features here.

Chat Functionality: Use the Chat feature to have secure conversations with your staff. Quickly get the answers you need with a simple message, instead of bogging down your email.

Member Relationship Management: Track your member engagements using interactions and opportunities. Whether it's member touch points or cross-sell opportunities, see your metrics on the entire credit union.

Surge: Send targeted marketing campaigns via text or email simply and quickly. The built-in query pulls directly from your core, so you use the most current information with no hassle.
